

# OLD TOWN BAKERY

## Covid-19 Safety Plan

We'd like to assure you of our current efforts to prevent the spread of Covid-19.

- We are continuing service through our takeout window to assist with physical distancing and to better serve our customers
- We have added additional services such as delivery and online ordering to ease line up congestion
- Clear signage and physical distancing markers have been laid out to help direct and keep patrons apart
- We have heightened our already thorough cleaning procedures and increased regular cleanings of commonly used surfaces and equipment
- Staff members have been trained and directed on proper hygiene and sanitation requirements
- Face masks and shields will be worn by members of staff, specifically when interacting with customers
- We have decreased the number of staff members allowed in the building to ensure we maintain our physical distance
- Staff members may not enter the premises if experiencing any symptoms of Covid-19
- Staff members must follow self-isolation protocols recommended by the Provincial Health Authority if any symptoms of the virus or potential contact has occurred
